

# Mentoring Program TANDEMplus for women Postdocs

supports you

- to strategically plan and shape your career
- to develop your potential and individual key competences
- in the acquisition of knowledge about structure, processes and informal rules in science

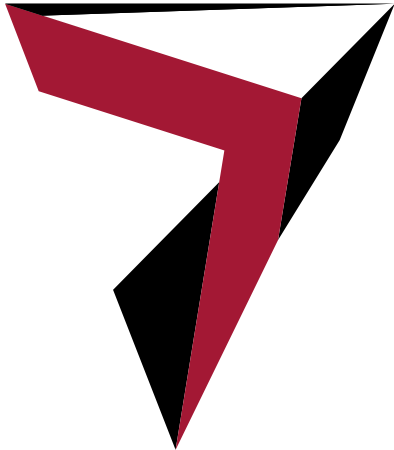

The one-year cycle program in English consists of three modules:

- One-to-one mentoring by an individually selected personal mentor
- (Online-)Trainings for advanced professional and personal development
- Networking events dedicated to career-related topics
